

Simple Sixteen is a simple quilt that comes together quickly. It is made using basic piecing techniques. You can easily make this quilt larger or smaller by taking away or adding more blocks to your quilt.

This quilt was made using Back Porch Prints by Wilmington Prints.

Read all instructions before starting. All seam allowances are 1/4" right sides of fabric together. Do not sell or distribute without consent.

Fabric Requirements

12 - 1/4 yard cuts of various fabrics (this will leave enough extra for scrappy binding)
 1 1/2 yards of background fabric.
 3 1/2 yards of backing and batting

Cutting Requirements:

Out of 1/4 yard cuts:

9 - 5" squares of various prints
 144 - 3 5/8" squares of various prints

Out of background fabric:

16 - 3" x Width of Fabric strips

Finished quilt size 57" x 57"

Block Construction

*All seam allowances are 1/4"

Pieces needed for one block:

- 1 5x 5 square
- 2 - 3" x 5" strips
- 2 - 3" x 10" strips
- 16 - 3 5/8" squares

Unfinished block size is 16" x 16"

1. Start with a 5" square. Sew top and bottom 3" x 5" strips onto the square. Press.

2. Sew the left and right side strips on.

3. Sew two strips of 3 - 3 5/8" squares together. Press.

4. Sew two strips of 5 - 3/58" squares together and press.

5. Sew the block strips to the top and bottom of your square in a square unit. Press

6 Sew the block strips to the left and right sides. Press. Make 9 blocks total.

1. Measure blocks, they should measure 16" square.
2. Cut out 6 - 3" x 16" strips.
3. Sew blocks together in rows of three adding a 3" strip in between each block.
4. Measure the length of your rows, and then sew a 3" x length of row strip in between each row and also on the top and bottom.
5. Measure the length of your left and right sides, and then sew a 3" x length of quilt strip on the left and right side.
6. Press
7. Your quilt top should measure about 57" x 57" Baste, quilt, and bind with your preferred method.

Log Cabin Quilt Block Tutorial

Hello, everyone! Doesn't it seem like a perfect day to learn something new? Today, we're going to show you how to make the classic Log Cabin quilt block! This is a must-know for any quilter, and it's a super versatile block that can take on many different looks, depending on fabric colors and placement.

We're going with the classic size, so start with seven different prints, each cut into 2.5" strips. Some prints are obviously not used as much as others, but if you want to make more than one block, you will need lots of strips!

Fabrics are from an assortment of designers, including Anna Maria Horner, Joel Dewberry, Bari J, and Maude Asbury. We chose a Cotton + Steel print for our center square, then went from lighter prints in the middle to darker prints on the outside. For one 14" square Log Cabin block, cut your strips according to the picture below.

Start assembling the block in the center, with the two squares. As usual, sew a 1/4" seam and press seams toward the darker fabric.

Next, sew the top and bottom strips on.

And now, the left and right sides fit! Sew those two strips on next.

Now, the next level of top and bottom strips go on. You can probably see how things work by now. Continue working your way from the center of the block outward.

Now, add left and right strips.

Add top and bottom strips.

At this point, you will only have one side remaining to sew to the block. Sew it on, press the seam, and you're done!

So pretty! You can build a quilt in any size you want with this block. Refer to our [Quilt Sizes Printable](#) for popular basic quilt sizes.

As always, leave any questions or comments for us below. We can't wait to see what you make!
