

## Row Assembly

### Sew Smart™ Tip:

Referring to photo on page 63, lay out strips before making strip sets. Strips will be joined in pairs, then cut into varying-length segments before making rows. —Liz

Strip Set Diagrams

Row Diagrams

1. Join first pair of strips as shown in *Strip Set Diagrams*. From strip set, cut 3 segments of varying lengths.
2. Lay out segments and 3 coordinating A squares as shown in *Row Diagrams*. Join to complete Row 1.  
**NOTE:** Refer to *Quilt Top Assembly Diagram* to determine number of A squares and B rectangles and their approximate placement. Length of rows may vary. They will be trimmed later.
3. Continue in this manner, making 1 row at a time. Cut each strip set into 3–5 segments in various lengths from 4" to 19". Add coordinating A squares and B rectangles between segments in each row. Make 15 rows.

## Quilt Assembly

1. Lay out rows as shown in *Quilt Top Assembly Diagram*. Join rows to complete quilt top.
2. Trim top and bottom of quilt top.

Quilt Top Assembly Diagram

## Finishing

1. Divide backing into 2 (1½-yard) lengths. Join panels lengthwise.
2. Layer backing, batting, and quilt top; baste. Quilt as desired. Quilt shown was quilted with straight lines (*Quilting Diagram*).

3. Join 2¼"-wide dark green print strips into 1 continuous piece for straight-grain French-fold binding. Add binding to quilt.
