Choose the colors that you like the most. You don't need to use exactly the ones I put here, nor the fabrics. You can also buy from other fabric stores close to your home.

nglês: "The important thing about this pattern is not to make it exactly like the model created here, but to use your creativity as a Quilter and adjust the fabrics and ball sizes according to your taste or needs. For example: you can vary the sizes according to your wall, your table, your door, your car, or your decor. The most important thing in this pattern is to always maintain the triangular shape; it doesn't matter how varied the sizes you use are, but the triangular form (the outer shape) should be 'almost' perfect. I hope these tips and models can help you.»
