Disclaimers

This pattern is provided as a courtesy to quilt stores, catalogs and quilters. Michael Miller Fabrics, LLC is not responsible for the accuracy of any kits packaged to accompany this pattern. Please direct any inquiries to the kit maker.

Yardage requirements for this pattern may allow for excess yardage to accommodate specific placement of motifs or to allow for any fussy-cutting to achieve the finished quilt design.

While every attempt has been made to give accurate measurements, yardage requirements and construction directions; this does not allow personal variations in measuring, cutting or sewing. The enclosed directions were used in the construction of the original quilt.

Block Assembly

1. Cut thirty-five 8 ½" squares of fusible web. Following the manufacturer's instructions and using the center marks on the template to trace thirty-five templates.
2. Center each piece of fusible web onto the wrong side of the 8 ½" squares as listed on the template. Press each template onto the wrong side of the fabrics. Cut out each template on the drawn lines. Note the gray area on the template are the waste area and the frame with the cut out flower is the piece used on the blocks.
3. Refer to the Figures 1-20 to pair up the templates with remaining 8 ½" squares. Center the template piece onto the 8 ½" square aligning all the edges. Following the manufacturer's instructions and press the pieces together.
4. Finish the inside raw edges of each flower and dots with a decorative stitch such as a buttonhole or satin stitch. You do not need to finish the outer edge of the blocks since these edges will be caught in the seam when sewn together.
