

Easy Spider Web

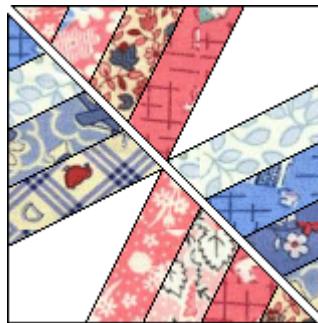

This makes a 7" block and is paper pieced!

The first thing that I would recommend that you do, is go to the [Practice Paper Piecing Page](#). When you feel comfy with paper piecing, come on back and try an easy Spider Web Block! You will need to print out one copy of the template page per block you want to make on very lightweight paper. Fat Quarters or scraps are plenty!

After your two units are pieced, join them as shown at left to complete the block :o)

The quilt, shown here on its side, is four blocks by five, with a simple pieced border :o)

Happy Quilting All!
